

COMPANY PROFILE

FARRAJ TRADING AND MANUFACTURING CO.

History

Farrah Trading and Contracting Company (FTC Group) which is the headquarters established in 1962 has been the exclusive agent and licensee of Westinghouse Electric Co. for more than 38 years. FTC has always been a multi-business company. Over the past 54 years of innovation, it has evolved to seize new opportunities created by changes in technology and the economy.

The history of FTC is a significant part of the history of technology in the Middle East following the evolution of electrical technology from the simplest early applications into the high-tech of the early 21st century. In 1999 Farraj Trading and Manufacturing Company (FTMC) was established to offer the market their circuit breakers manufacturing technology, production techniques and quality control that are under international standards such as IEC, ISO 9001:2008 ISO, 14001:2004 to become one of the major competitors in the market and one of the most important suppliers of circuits breakers in Gulf region and the Middle East.

In 2010 FTC became partners with GE in five countries. To ensure quality, all our products are ASTA and KEMA certified. Farraj Trading and Manufacturing Company (F.T.M.C) is certified by ISO 9001: 2008 ISO, 14001:2004 and All product are ASTA & KEMA certified.

Our Mission

To commit a continues Improvement process between the company and the consumers by Providing high quality products and services

Our Vision

Creating a better world where FTMC Switchgear Products will be known as one of the best products in major countries.

Our Values

These are the Guidelines as we work towards our vision:

Quality – our focus is that the quality of work is always on high quality standards.

Commitment – We are committed to provide high Quality Products and services

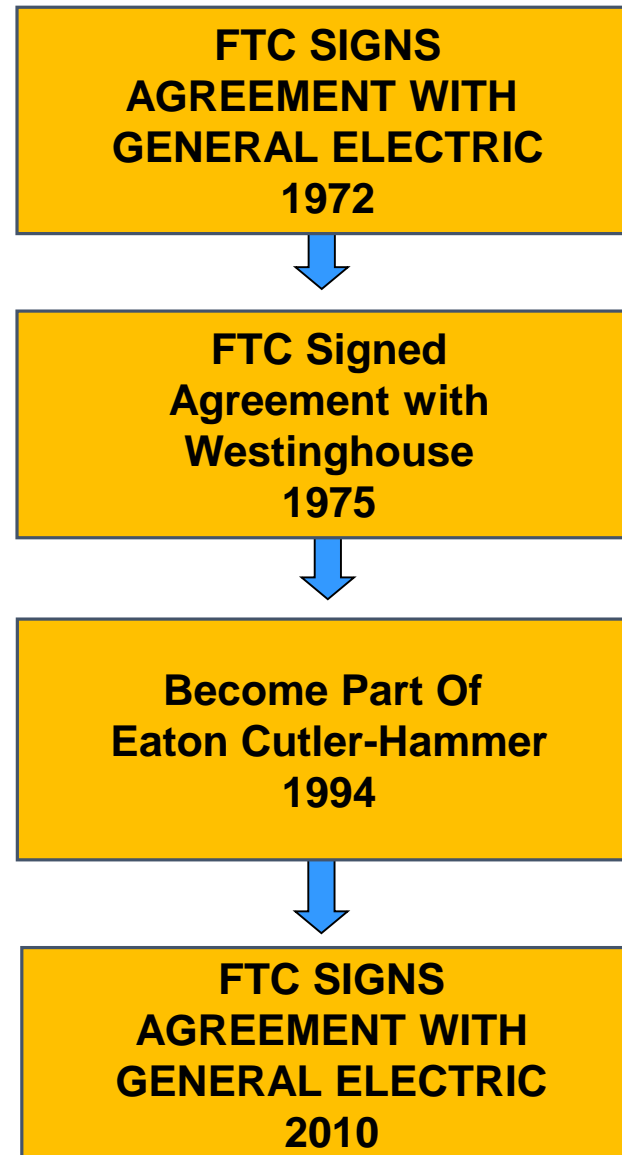

MISSION / VISION

The Seven Customer Expectations

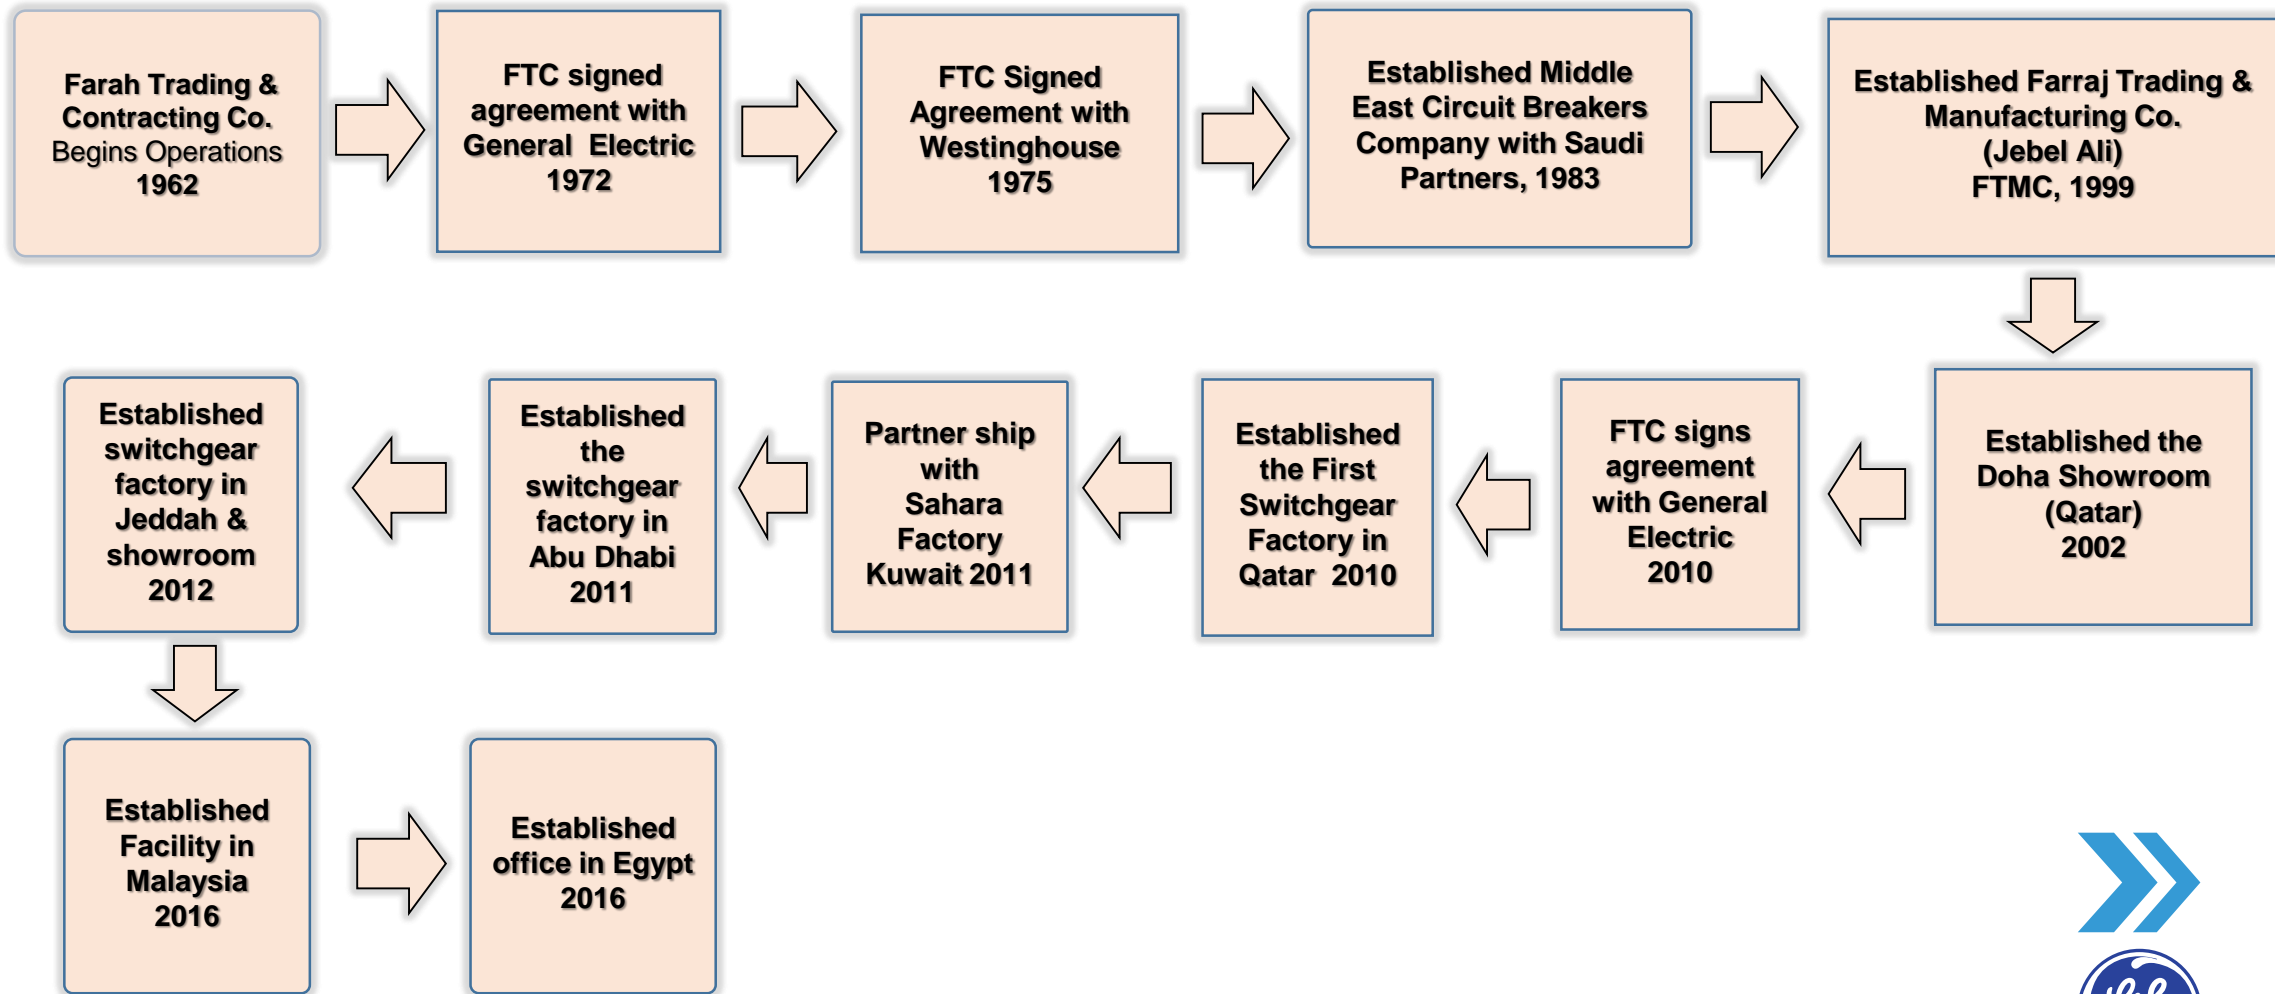

1. The Supplier is expected to tell the truth! Vagueness is equivalent to lying.
2. The Supplier is expected to know the Customer's business.
3. The Supplier is expected to do what he says he is going to do.
4. The Supplier is expected to solve the customer's problem – the customer is not interested in internal organization issues.
5. The Supplier is expected to want the customer's business.
6. The Supplier is expected to keep the customer technologically current.
7. The Supplier is expected to know what his products capabilities and that those capabilities match published literature.

AGREEMENT HISTORY

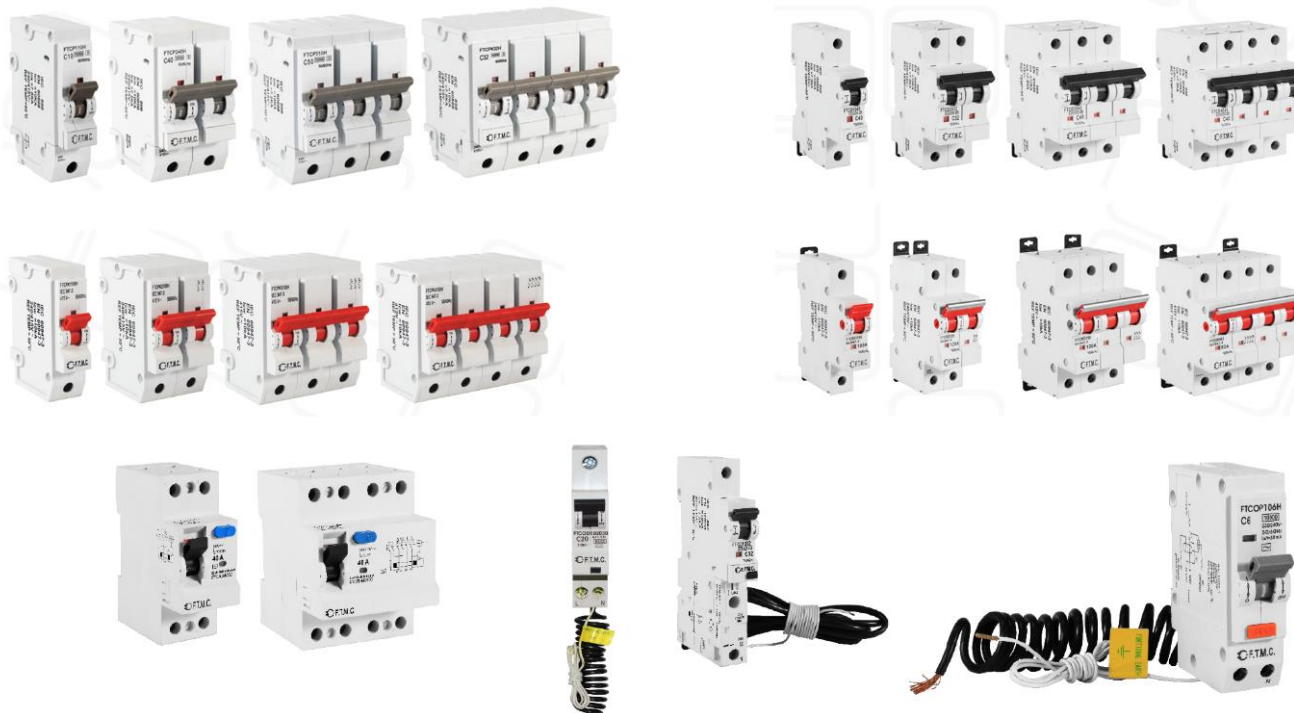

Over 54 Years of Combined Electric Industry Expertise OF FTMC

FTMC Products

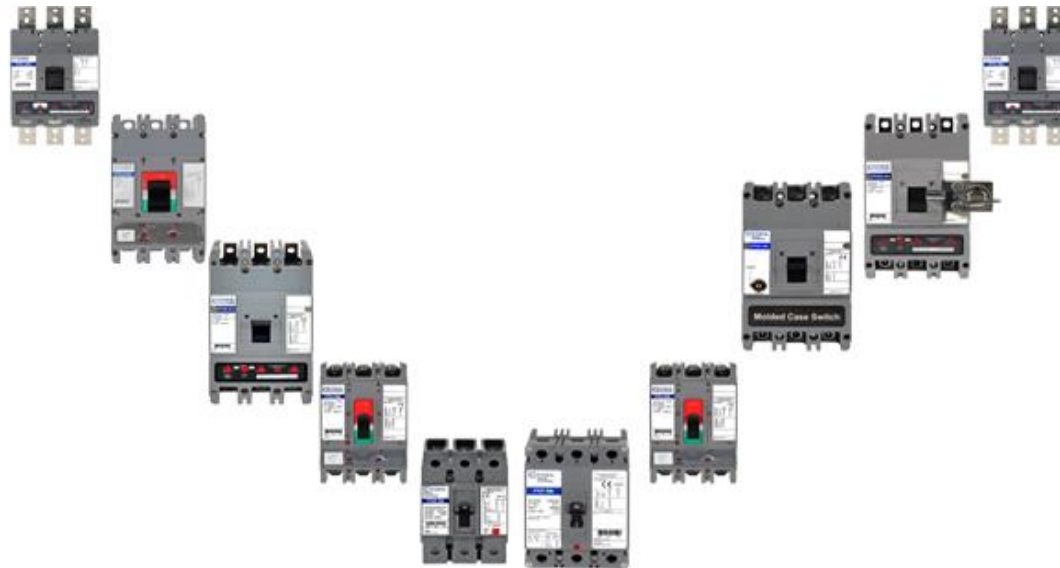

Our Range of Products

MCB's, RCCB's, Isolator and more other DIN Rail Plug-in Type & Bolt on - bolt out devices with different Ampere ratings.

OUR RANGE OF MCCB

Different frames with different Ampere rating and breaking capacity. Starting from 16A 800A (25, 50, 65, 85kA)

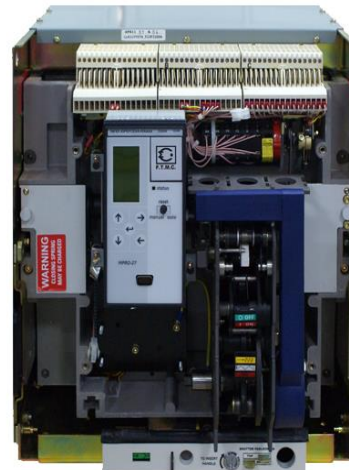

Power-Wave - Frame (Air Circuit Breaker)

Rated from 400 to 6300A the Power - Wave Plus circuit breaker has been designed to meet the most stringent demands in fault detection and safe interruption thereof.

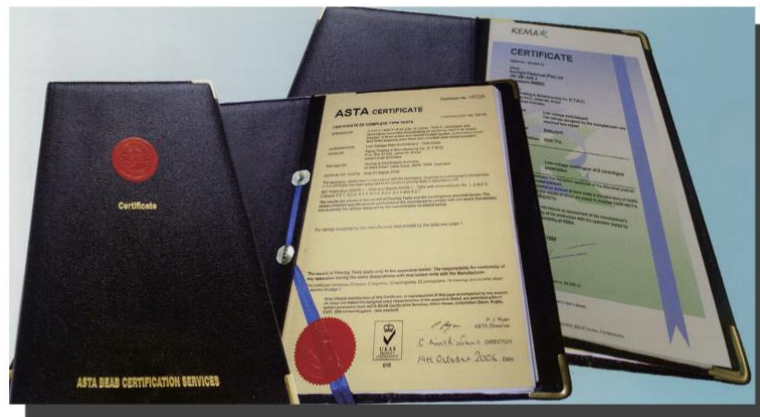

Available in 2 frame sizes:

- Frame size 1 ranging from 400 to 2500A
- Frame size 2 ranging from 800 to 4000A

F.T.M.C Type Switchgear & Controlgear System

F.T.M.C. provides an extensive low voltage electrical equipment package to cover most applications. Due to the adaptability of F. T. M C. is modular systems, many of the equipment or systems can easily be supplied and integrated into the same enclosure . F.T.M.C. offers the complete range from packaged sub-stations main boards with nominal ratings from 800A to 6400A. Incoming feeder sections and bus-coupler arrangements are available for rated current up to 6400A. Full flexibility of choice is offered in the selection of electrical equipment with regard to brand, make and type of breakers for fixed, withdrawal,

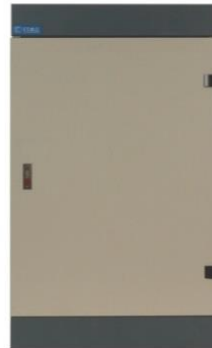

F.T.M.C. System has thoroughly type-tested its according system to specifications and requirements in IEC 61439-1 & 2 for Type Tested Switchgear Assemblies (TTA). It conforms to major markets in the world.

FTMC Product

Panel & Distribution Boards

Our F.T.M.C assembled panelboards are designed for sequence phase connection branch circuit devices. Sturdy, rigid chassis assembly assures accurate alignment of interior with panel front, preventing flexing and minimizes possibility of loosening or damage to current carrying parts during and after installation.

ASTA CERTIFICATE FOR MAIN PANEL DB

GE SEN Plus LV Equipment

Control Center
Fixed, plug-in & withdrawable
Special solutions

Empty Panel
Full mounting plate
Customized solutions

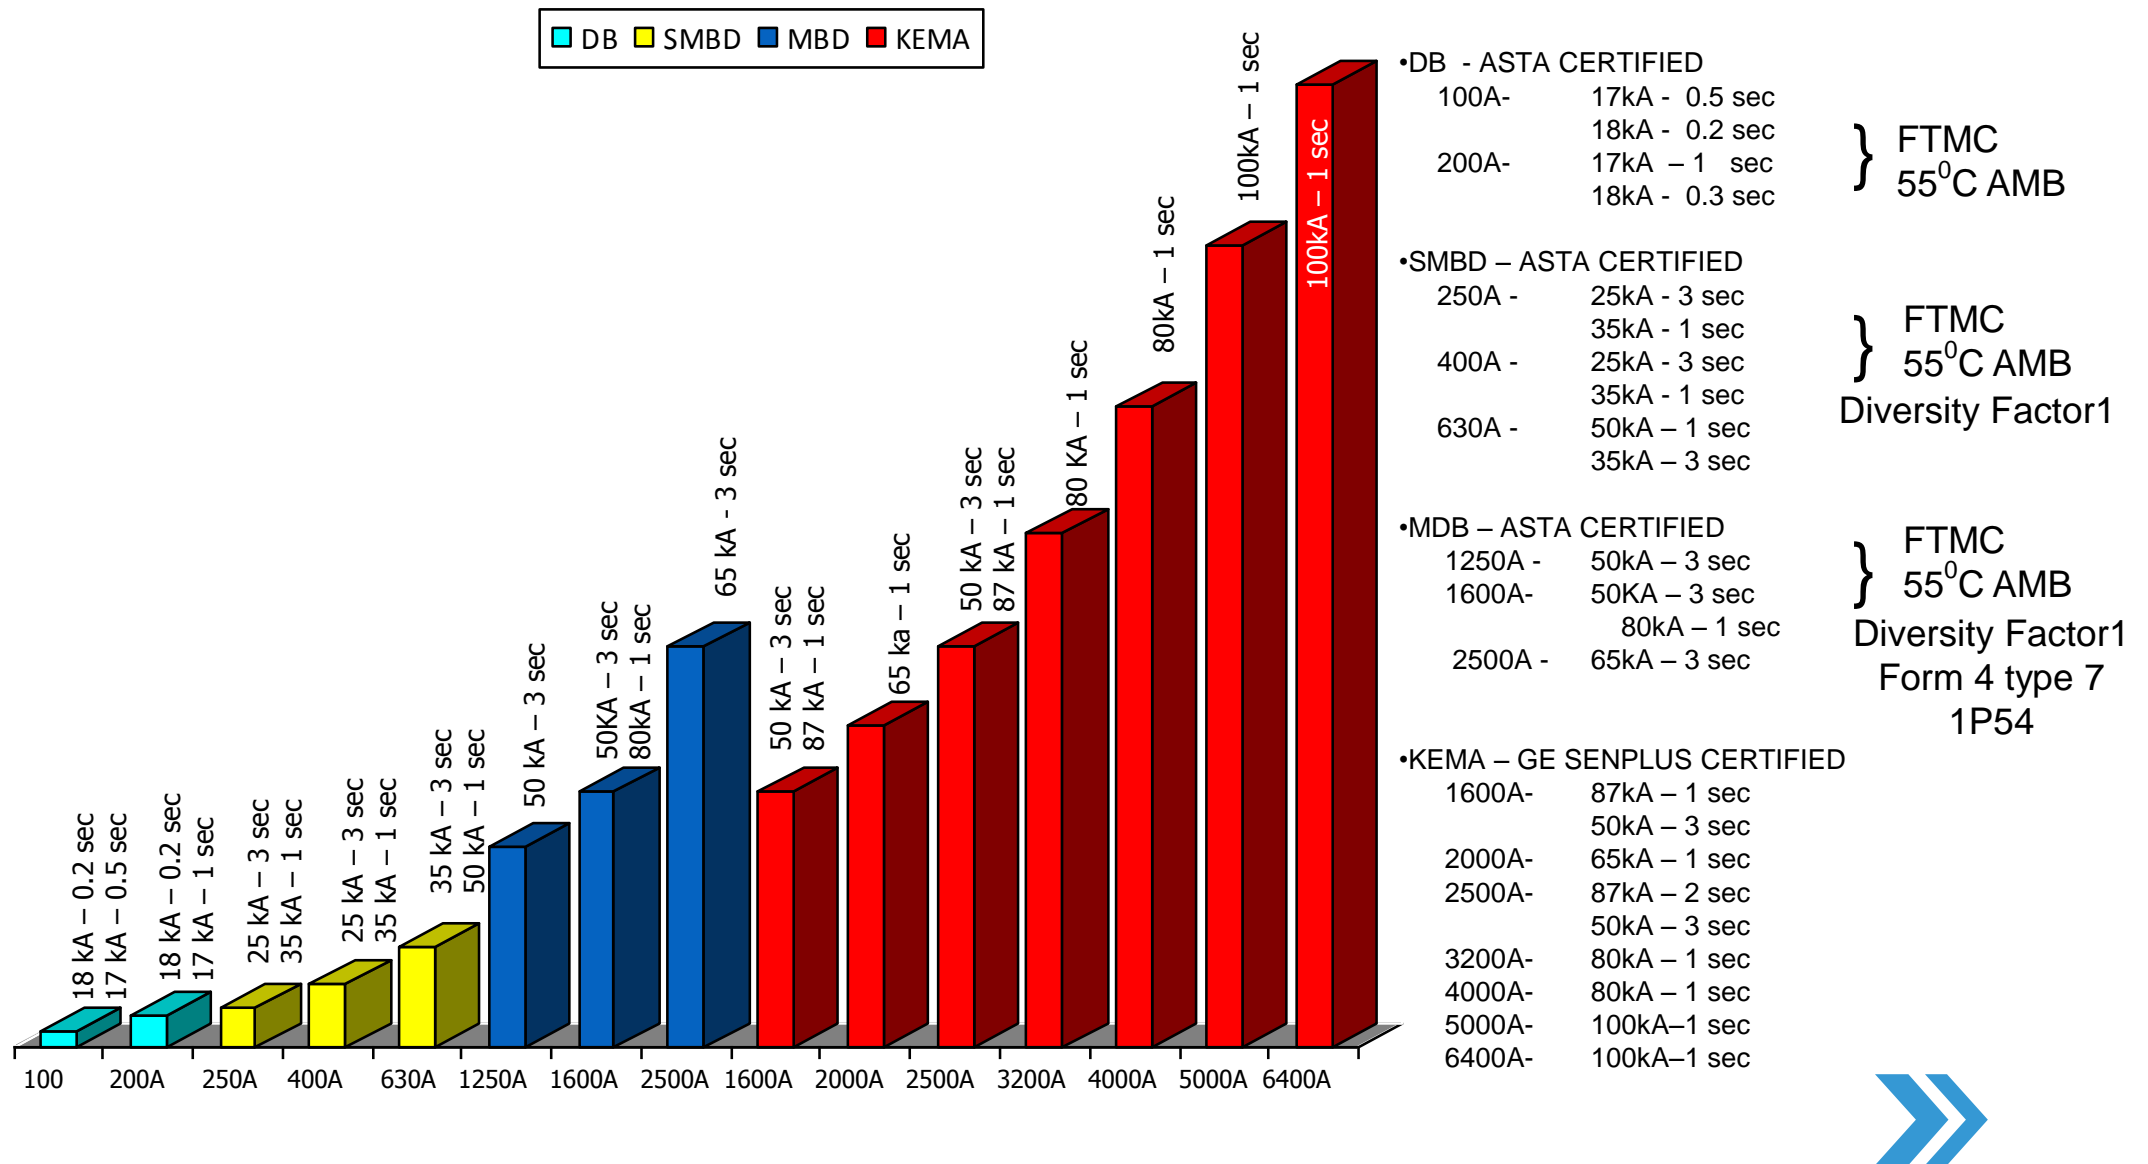

Fused feeder Panel
Up to 630A – DIN & BS
HSE Plus switch

Distribution board / feeders
Fixed & withdrawable appl.
ACB, MCCB & LBS

Main Incomer & Buscoupler
Up to 6400A
Fixed & withdrawable appl.

SHORT CIRCUIT RATING COMPARISON CHART

Products & Services

Air Circuit Breaker

M-pact breakers are designed for use in low voltage assemblies: switchgear, switchboards, motor control centres, and transfer switch equipment and is ideal for both residential and industrial applications.
